

## **CONTENT**

- Tourism on Pemba Island
- Blue Economy focus on tourism and fishing
- Swedish tech opportunity in ECOBARGE to support sustainable development

## THE MANTA RESORT

- Community Conservation Tourism
- Low volume high yield tourism product
- Supported by Kwanini Foundation and community

### THE MANTA RESORT

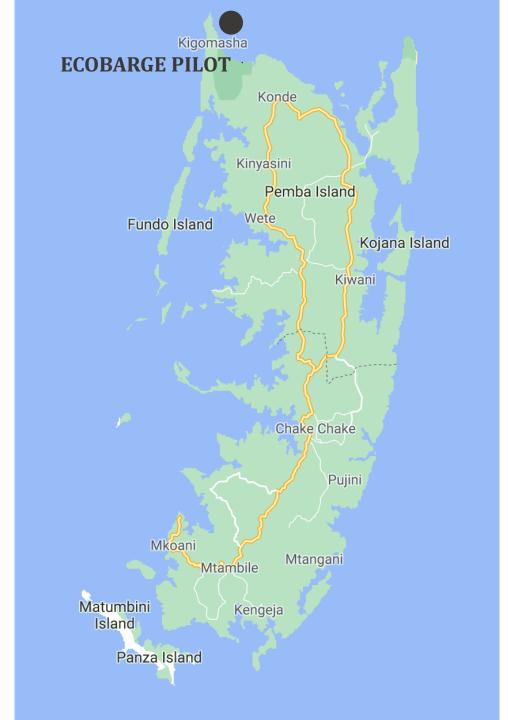

- WHO WE ARE The Manta Kwanini family
- WHY WE DO WHAT WE DO We believe in a bright sustainable future for Pemba Island
- As a role model, our objective is to continue building a network of **UNDERSTANDING** in sustainable development. This understanding grows a community of common **CARE** which in turn motivates and empowers **ACTION**.

## PRE-FEASIBILITY BY ECOBARGE

A pre-feasibility study has been done based on The Manta Resort interest for sustainable development on the site to become environmentally, socially, financially sustainable resort and for the local fishing community development.

The Project now enter the next phase: Pilot Plant for processing and cooling of fish.

# SEAFOOD PROCESSING & SUPPLY PROJECT OBJECTIVE

- Community Conservation Tourism
- Incentivization for sustainable fishing
- Regulation of illegal fishing
- Develop a sustainable processing and supply chain to mainland tourism circuit demand
- Jobs to local communities
- Creating demand for blue economy projects for communities
